Getting Started

Step 1 - Download

Clicking on the download button below will download a small application. Run the application to download your software.

[Download Now](#)

Step 2 - Install

Once the download is complete, run the installer. The final step in the install process will run a "License Manager" application.

The download and installation process will proceed just as they would with any other subscription license.

If they had the Traditional license already installed it may continue to work for a short period of time, but will soon let them know that the license is no longer valid.
